

How to install the *Analyze document Startup Script*

Follow the steps below to install the script in the correct location:

1. Run InDesign
2. Display the Scripts panel on the screen (*Window > Utilities > Scripts*)
3. Right-click on the *User* folder in the panel, and choose *Reveal in Finder* (Mac) or *Reveal in Explorer* (Windows)
4. This will highlight a folder buried deep on your computer that is named *Scripts Panel* that is inside a folder named *Scripts*. In the *Scripts* folder, right next to the *Scripts Panel* folder, create a folder named exactly *startup scripts*.
5. Copy the *Analyze document Startup Script.jsx* file into the *startup scripts* folder.
6. Quit InDesign.
7. Start up InDesign, and a command called *Analyze Document* will be added to the File menu.
8. Now, any time you want to run the script, just open an InDesign document and choose *File > Analyze Document*.
